

I am very pleased to meet Rafaela Tanner and I am so glad to see how much efforts she takes in order to improve life of so many poor kids in India...

There are many who would like to do that but unfortunately they know how to just talk and take no actions but Rafaela proved it that once you have the will to do anything then no one can stop...

I am really impressed for the work and amount of time and efforts she dedicates to the poor and needy... Hats off to her...

God bless! Good luck!
